Stakeholders Feedback and Action Taken Report for the AY - 2019-20

The university has a well-defined and sophisticated practice of assessing teachers by the students. This is considered as very important inevitable academic practice of the university. Feedbacks are taken very seriously by the teachers, so as to make their teaching more enjoyable and effective at all levels. To understand the strength, weakness and the prospects of working harder is one of the objectives of the feedback system. The comments and suggestions received from students are carefully recorded and rectification measures are taken, whenever the requirements are identified.

During the feedback collection, students are given options to assess the performance of their teachers in respect to the comments or opinion marked in the feedback sheet. Students assess the following skills and potentials of their teachers.

- Subject knowledge of the teacher
- Teacher's computer / IT skill
- Sincerity / commitment of the teachers
- Interest generated by the teacher
- Regularity and the punctuality of teacher
- Has the teacher covered the syllabus in the class
- Accessibility of the teacher in and out of the class
- Ability to design quizzes / tests / assignments/ examinations
- Communication skill of the teacher
- Teacher's overall performance

The collected feedbacks are sent to the respective teachers and the departments for affirmative actions. Feedback collected on the programmes and teachers are discussed in the department. The positive comments are appreciated and the comments demanding more attentions are discussed in detail. University ensures the continuous improvements in quality of the academic practices in all spheres. In short, the university considers the system of students' feedback as an opportunity for students to pursue the critical sensibility over the content and ways of teaching.
