STAKEHOLDERS FEEDBACK

ACTION TAKEN REPORT 2021-2022

Sree Sankaracharya University of Sanskrit, Kalady has developed and maintained a comprehensive feedback system involving all stakeholders. The feedback collected from employers, alumni, parents, and students serves as a crucial tool for updating the academic curriculum and improving the facilities provided by the university. The university recognizes the significance of incorporating instructions and suggestions from stakeholders in relevant decision-making processes.

One of the key components of the feedback system is the collection of feedback from students regarding their teachers at the end of each semester. This feedback enables teachers to assess their strengths and weaknesses, and it plays a vital role in enhancing their academic competencies. The feedback is highly valuable in evaluating and improving one's own academic merits. If necessary, appropriate rectification measures are undertaken based on the feedback received.

The feedback from students regarding teachers is collected based on the following criteria:

1. Subject knowledge of the teacher
2. Teachers' IT/Computer skills
3. Commitment of the teachers
4. Interest generated by the teacher
5. Regularity and punctuality of students
6. Completion of the syllabus in the class
7. Accessibility of the teacher in and outside the classroom
8. Ability to design quizzes, assignments, tests, etc.
9. Communication skills of the teacher
10. Overall performance of the teacher

The collected feedback data is shared with departments as well as individual teachers for further action. The university ensures that relevant measures are taken to promote academic improvement based on the feedback received.

The collected feedback data on courses is forwarded to the respective departments for further analysis and necessary action. The university ensures that departments carefully review the feedback and consider appropriate measures for

course improvement and refinement. These actions may include curriculum updates, pedagogical adjustments, resource allocation, and faculty development initiatives.

As part of the post-accreditation activities, a committee has been appointed to revise the feedback forms. This committee will work on updating and enhancing the existing feedback forms to ensure their effectiveness in capturing relevant information. The revision process aims to make the forms more comprehensive and aligned with the evolving needs and expectations of stakeholders.

Sree Sankaracharya University of Sanskrit, Kalady remains committed to continuously improving the quality of education and providing an environment conducive to academic excellence. The feedback system and the subsequent actions taken based on the feedback received play a pivotal role in achieving these goals.
